

Our team is at the halfway mark and we're falling behind.

Do we throw in the towel or give it our best and make a comeback?

WORLD LEADERS HAVE A CHOICE WHEN IT COMES TO ENDING POVERTY. In 2000, they committed to the Millennium Development Goals to eradicate extreme poverty and hunger by 2015. Now it's 2007, the halfway point. We're still in the game—but falling behind.

THIS CAN BE A WIN-WIN FOR ALL. Our partners in developing countries are working hard to escape from the burden of poverty. Together, we have the know-how and resources to reach our goals. Yet here in Canada, our own contribution to development is starting to slide backward.

GET IN THE GAME AND HELP TURN THINGS AROUND. Pick up a copy of the *Blow the Whistle* letter and send it with a clear message to Canada's leadership. Let our leaders know that you want them to keep our promise and meet the goals.

Micah Challenge is a worldwide movement of churches and Christian organizations that takes inspiration from Micah 6:8—where mercy and justice are indivisible from walking humbly with God. Find out more at www.micahchallenge.ca
